

### **Goal:**

- To improve time management efficiency within the realm of academics, networking, and resource management.

### **Theme/Art Direction:**

- Bee themed/ Structured around a beehive since the service is mainly crowd sourced. Call
- Groups are called the Colony
- Dashboard the HoneyPot (BeeCombs)
- Local and Global Leaderboards - Top which is the Queen Bee

### **Team Feature List:**

- StudyB - pop quiz feature
- Modular Goals/toggleable settings - Timers, Understanding goals, Solutions Streaks, and more
- Networking Features/ B-hive - through the medium of messaging boards, discord links, and profiles, along as sub groups similar to a virtual classroom/meeting room. Comprehensive profiles (School networking)
- Study systems (Bsmart) - Flashcard style systems along as other archetypes such as mcq quizzes and frq quizzes
- Competitive aspects: i.e. a dashboard/leader board from which people can compete or keep track of their progress
- /integrated systems/ - (maybe due to uncc being funny)

### **Feature Sketch Responsibility:**

StudyB - Sofia, Oliver

Networking - Richie, Jorge

Study Systems, BSmart - Oliver

Competitive aspects - Jorge, Sofia

Modular Goals - Richie, Sofia

Everyone Does one more additional feature Sketch

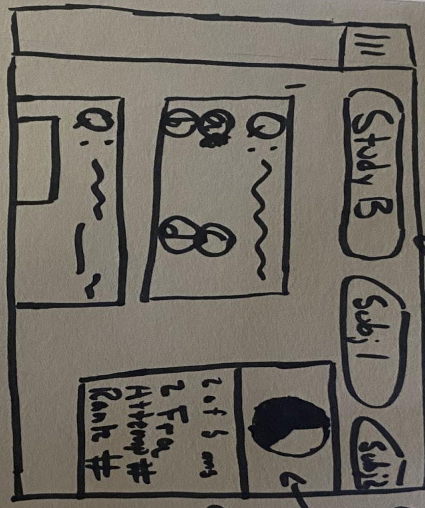

Bootstrap Website- Done Together
